

Hands On AI Lab

Make More Room to Create

More human, not less.

A hands-on AI lab about **brainstorming and exploring ideas**, letting the machine take on the repetitive work so you can spend more time creating.

Bring an idea, project, concept, or half-formed thought. Learn how AI can help you **explore possibilities**, organize ideas, create structure, and reduce repetitive work while you keep control of the meaning, direction, and final result.

The machine can propose. The human decides.

Wed, September 2, 2026 • 5:00-7:30 PM

Carbondale Branch Library — 320 Sopris Ave, Carbondale,
CO 81623
